

C'était pour hier !

*Ou comment accélérer le déploiement
des applications Lotus Notes*

teamstudio[®]
Get the most from Notes[®]

Les enjeux ?

- Contrôle de l'environnement applicatif
Domino
- Contrôle du déploiement des applications
- Coexistence
Admins/Développeurs !

Priorités pour les Administrateurs

Contrôle

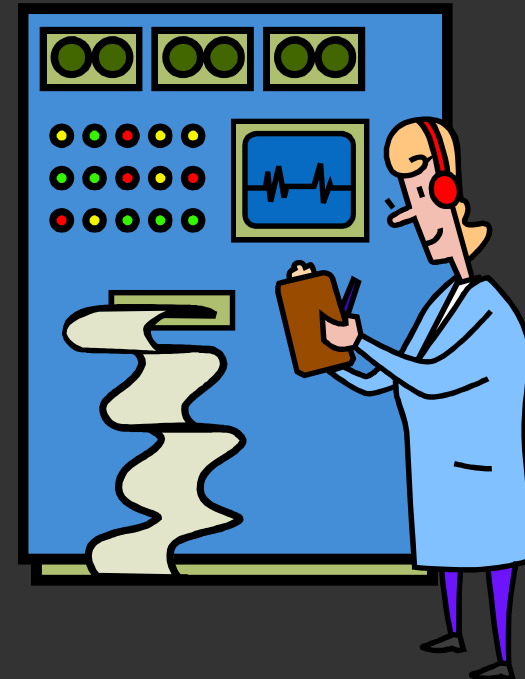

Visibilité

Responsabilité

Pourquoi ?

- Compliance?
- Standards
- Good Practice

Les Développeurs sont dangereux !

Cela vous rappelle quelque chose ?

Problèmes d'ECL issues sur les postes de travail

Agents s'exécutant sur le mauvais serveur

Les développeurs sont-ils

Bugs critiques dans les applications déployées
incontrôlables ?

Agents ne s'exécutant
pas en production

Regressions dans la mise-
à-jour des Applications

Développeurs sous pression

Contrôle du déploiement

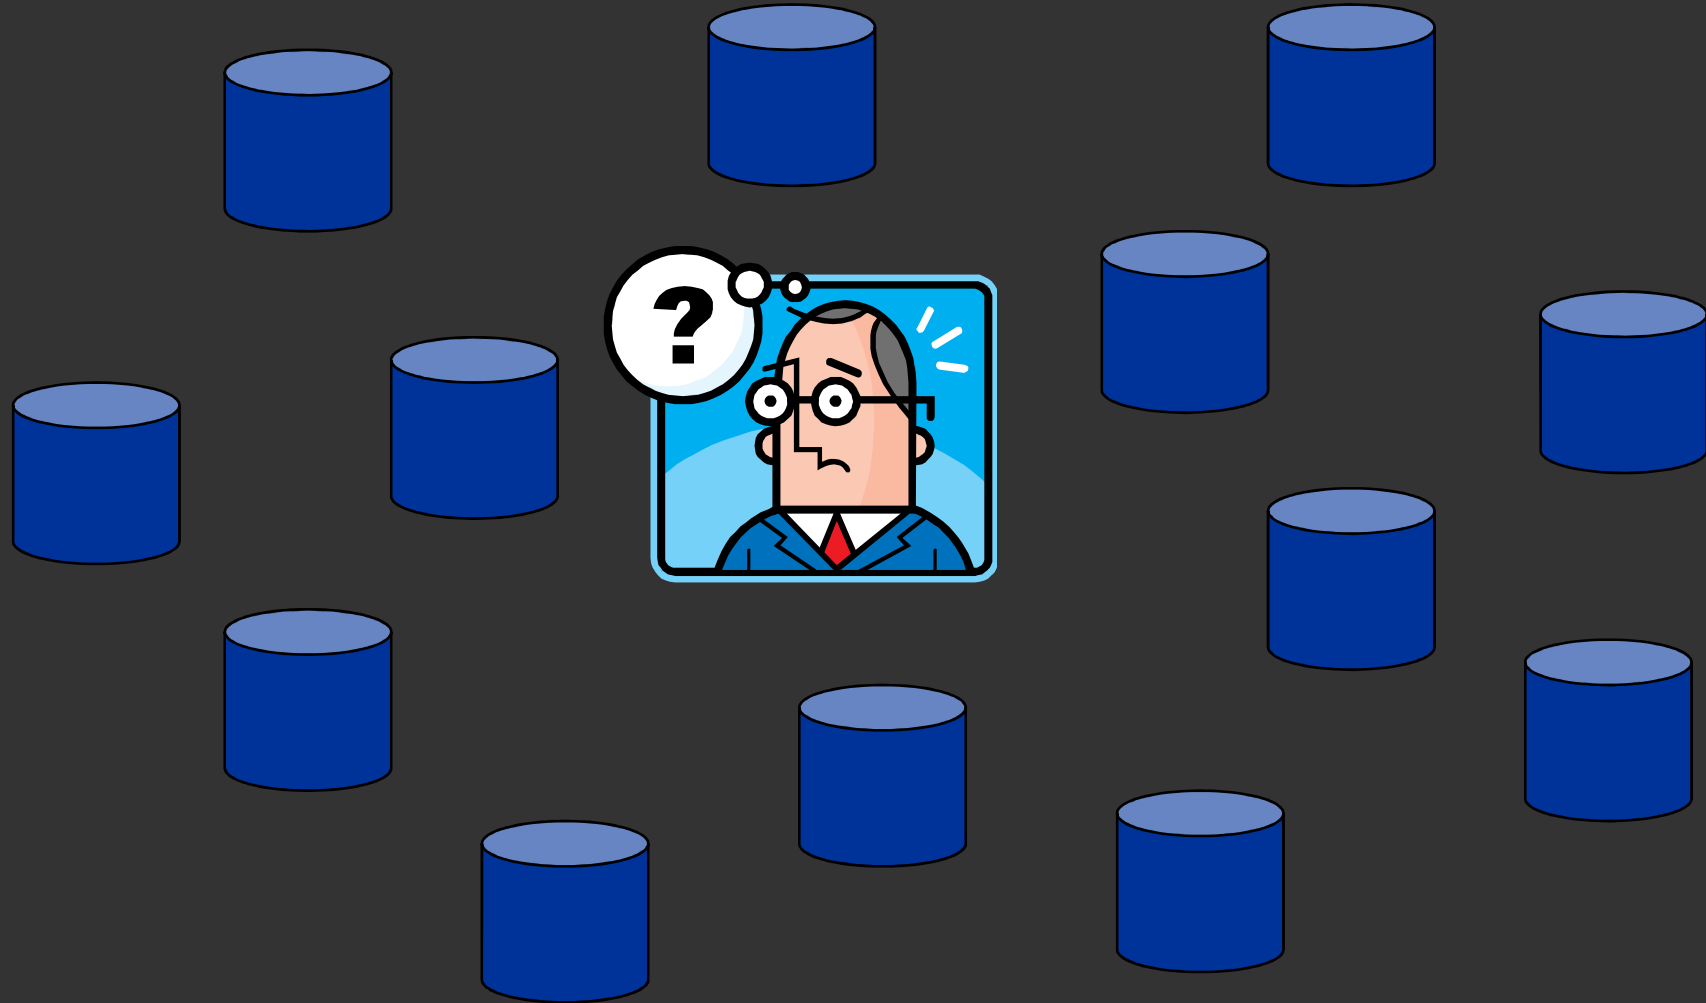

Le contrôle est un mal nécessaire !

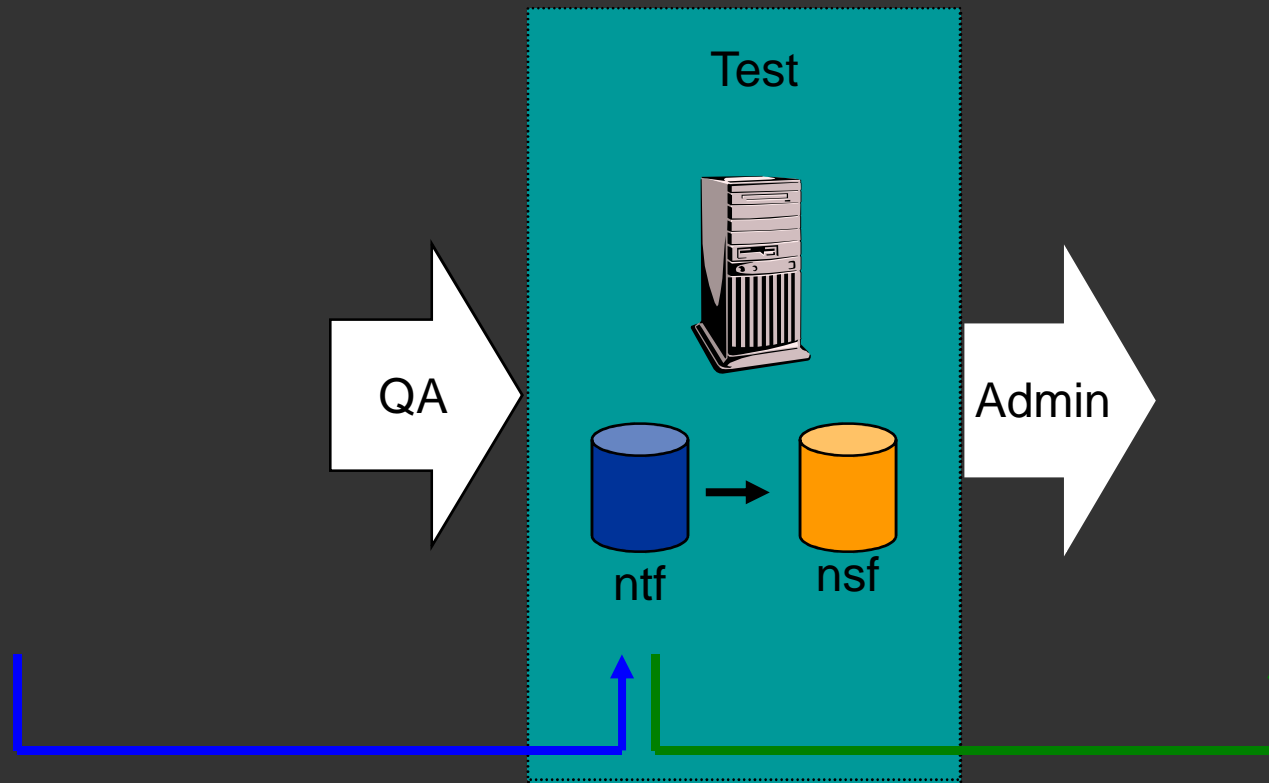

Même les développeurs le
pensent (mais ne dites pas que
je l'ai dit !)

Vous pouvez contrôler sans trop de
contraintes !

Auditer des applications live

Architecture de votre environnement

Build Management

build  [bild]  [Show IPA](#) **verb, built** or (Archaic) **build.ed;**
build.ing; noun

 Use **build** in a Sentence

-verb (used with object)

1. to construct (esp. something complex) by assembling and joining parts or materials: *to build a house.*
2. to establish, increase, or strengthen (often fol. by *up*): *to build a business; to build up one's hopes.*
3. to mold, form, or create: *to build boys into men.*
4. to base; found: *a relationship built on trust.*
5. *Games.*
 - a. to make (words) from letters.
 - b. to assemble (cards) according to number, suit, etc., as in melding.

man-age-ment  [man-ij-muh nt]  [Show IPA](#)

-noun

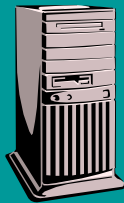

1. the act or manner of managing; handling, direction, or control.
2. skill in managing; executive ability: *great management and tact.*
3. the person or persons controlling and directing the affairs of a business, institution, etc.: *The store is under new management.*
4. executives collectively, considered as a class (distinguished from LABOR).

Déploiement des applications

- Dans l'idéal, ce processus doit être :
 - Documenté
 - Auditable
 - Répétable
 - Ségrégation des rôles
 - Automatisé (de préférence !)

Déploiement en un clic de souris...

We Can Help

what you may not know is ...

 **teamstudio** security manager

 **teamstudio** usage monitor

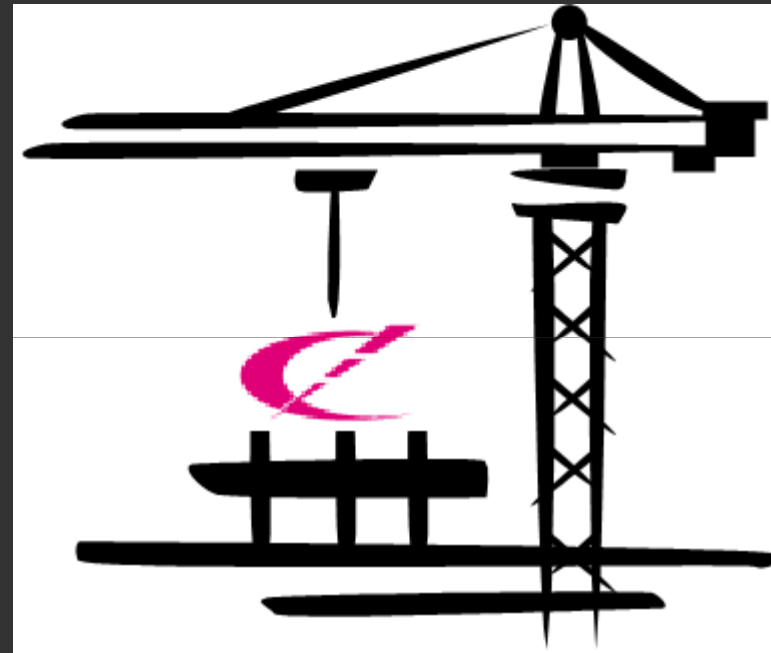

teamstudio[®]
Get the most from Notes[®]

 **teamstudio** build manager

 **teamstudio** agent registry

Teamstudio Build Manager

- Controlled
- Automated
- Self-documenting
- Auditable
- Segregated
- User-Independent

Teamstudio Build Manager

For the developer:

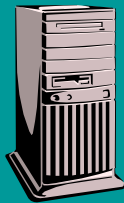

- Design Audit / Test
- CIAO! Integration
- Compile all LotusScript
- Change Database properties

For the Administrator:

- ACL
- Signing
- Refresh
- Set agent parameters

Autres solutions...

The image displays the main TeamStudio logo in the center, with the tagline "Get the most from Notes[®]". Surrounding this central logo are eight smaller logos for various add-on tools, each with a unique icon and color scheme:

- teamstudio analyzer**: Green icon with a stylized eye.
- teamstudio configurator**: Yellow icon with a stylized eye.
- teamstudio CIAO!**: Pink icon with a stylized eye.
- teamstudio delta**: Orange icon with a stylized eye.
- teamstudio validator**: Teal icon with a stylized eye.
- teamstudio design manager**: Light blue icon with a stylized eye.
- teamstudio snapper**: Light blue icon with a stylized eye.
- teamstudio profiler**: Red icon with a stylized eye.

Tools

- Analyzer → Analysis & Audit
- Configurator → Search & Replace
- Delta → Differential Analysis
- Design Manager → Code Reuse
- And More . . .
- Plus Free Utilities!

Configured Software

- Build Manager
- Security Manager
- Usage Monitor
- Agent Registry

Services

- Domino Asset Analysis
- Domino Upgrade Analysis
- Teamstudio Implementation
- Formation
